

Project Managers Needed

LINE is an award winning e-learning company enjoying success in all business sectors. We have been producing interactive learning and communications for almost 20 years.

What makes us unique is our consultative approach – we engage clients with confidence, intelligence and clarity. This enables us to deliver measurable learning outcomes characterised by a bold and innovative approach to technology and design.

LINE is expanding and has a broad range of clients and projects which provide interesting and absorbing opportunities for their team. We work in a demanding and busy environment with high expectations and tight delivery deadlines. Our people need to be flexible, responsive, proactive and intelligent.

Candidate requirements:

Candidates should have experience of managing projects from specification to implementation; should be clearly process-driven and be able to demonstrate understanding of the learning content, interactive design and technical development associated with e-learning.

If you have:

- Experience as Project Manager/Producer responsible for end to end project management and solutions delivery including client liaison, budget, schedule, change control and problem-solving
- Understanding of the e-learning business, or digital/media communications business with broad knowledge of delivery and development platforms
- Understanding of learning and instructional design issues
- Working knowledge of Microsoft Project, MS Excel and MS Word
- A broad technical understanding of e-learning development for the web (SCORM LMS, CMS, LCMS) would be an advantage.

Please send us your CV, with a covering letter outlining why you are interested in the role.
